AUBURN STUDENT INSPIRED DENALI
COLLECTION

Studio

AUBURN UNIVERSITY'S PLAYCORE STUDIO

Within Auburn University's College of Architecture, Design and Construction, PlayCore's own Tom Norquist teaches an Industrial Design class called PlayCore Studio, where students get firsthand experience designing outdoor spaces with site furnishings and park amenities. During a recent semester, one student's project was actually taken from the conceptual stage, further developed by our internal design team and ultimately manufactured by UltraSite—a division of PlayCore that makes high-quality outdoor recreation products—and installed at Research Park connected to the university.

INTRODUCING THE STUDENT DESIGNED DENALI COLLECTION

The concept that was installed at Auburn's research park is called the Denali Series, and it was designed by Auburn student Christine Lakeman and PlayCore Professor Tin-Man Lau. The collection of outdoor site amenities features a number of seating arrangements centered around circular tables as well as park benches all with a free-floating, modern design.
